

HIFAZAT TARPAULINS

Ultra-Strength Protective Covering Solutions

Specialised Tarpaulin Applications

UAE & International Supply

100% WATERPROOF

UV STABILIZED

CUSTOM SIZES

Engineered for agriculture, construction, packaging and industrial protection, Hifazat Tarpaulins deliver reliable performance in demanding environments across the UAE and international markets.

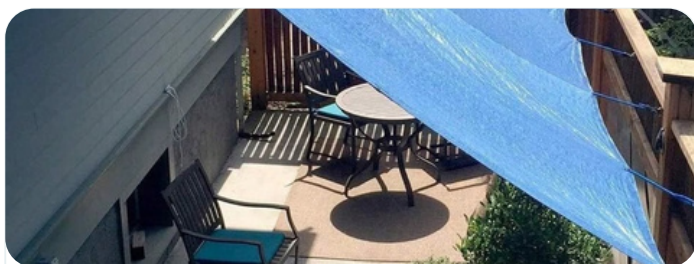

Applications Across Industries

HIFAZAT tarpaulins are engineered for strength, long outdoor life and reliable protection. Advanced cross-laminated construction helps deliver high tensile and tear resistance while maintaining lightweight, flexible handling.

ULTRA-STRENGTH PATENTED TARPAULIN FABRIC

Advanced | Waterproof | UV stabilized | Easy handling

HIFAZAT

TARPAULIN SHEETS

Heavy-duty protection for construction, storage, agriculture and industrial covering.

VEHICLE & CARGO COVERS

Weather-resistant covers for trucks, cargo, shipments and logistics operations.

GREENHOUSE COVERS

UV-resistant coverage supporting light, heat and moisture control for crop protection.

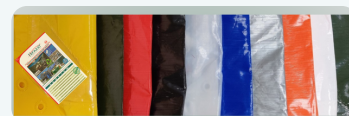

POND & WATER LINING

Waterproof protective lining for ponds, reservoirs, water features and containment needs.

PERFORMANCE HIGHLIGHTS

- Excellent tensile, tear & puncture resistance
- 100% waterproof and UV treated
- High elongation & flexibility over odd shapes
- 100% recyclable; easy to handle and transport

MULTIPLE COLOURS AVAILABLE

BIS 14611-2024

CUSTOM FABRICATION AVAILABLE FOR PROJECT-SPECIFIC REQUIREMENTS

Protective Solutions for Every Industry

Designed to provide dependable protection across a wide range of industries and working environments. Each solution combines strength, flexibility and reliable performance for demanding applications. Available in various sizes, colours and specifications to meet different operational needs. Built for long-lasting use, easy handling and consistent protection.

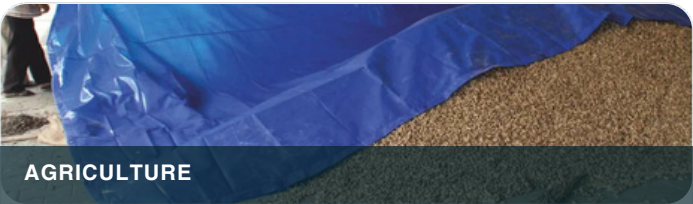

CONSTRUCTION & CIVIL

Heavy-duty waterproof protection for construction materials, machinery, scaffolding and active work areas. Designed to withstand demanding site conditions and prolonged outdoor exposure.

TRANSPORT & LOGISTICS

Provides reliable, weather-resistant protection for vehicles, cargo and commercial goods during handling, storage and transportation.

AGRICULTURE

Protects crops, agricultural materials and equipment from rain, sunlight and moisture, making it suitable for demanding outdoor farming conditions.

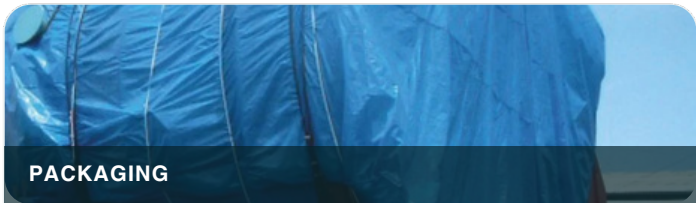

FUMIGATION

Creates a secure, gas-resistant enclosure that supports effective fumigation treatment for stored goods, commodities and industrial materials.

POULTRY CURTAINS

Helps regulate ventilation, temperature and sunlight while protecting poultry facilities from wind, rain and changing weather conditions.

PACKAGING

Protects machinery, equipment and commercial goods from water, dust and outdoor exposure during storage, handling and transportation.
